

How to record voice prompts for the phone system

The phone system requires voice prompts or recordings to be in a WAV U-LAW format. You can easily record voice prompt messages using your smartphone.

Instructions:

Please download the relevant application from the below links, open the app and record your message. Please then send the recording to support@globe2.net and we can upload this for you.

iOS: <https://apps.apple.com/gb/app/broadsoft-recorder/id635802005>

Android: https://play.google.com/store/apps/details?id=com.yydigital.broadsoft.recorder&hl=en_GB
